

GYM 365

SPORTING CLUBS

Strength and conditioning programs can be conducted alongside speed and agility drills for a more complete and intense training experience. The portability coupled with the large storage capacity of the 360gym means gear can be carried onto the oval, set-up quickly and various circuits can be conducted. This avoids repetitiveness and ensures training sessions remain interesting and motivating week in, week out.

PERSONAL TRAINERS

360gym comes as a ready-to-train package that allows you to offer numerous styles of outdoor training including strength training, circuits, functional, HIIT and more. With more storage, more equipment and more exercises at your disposal, building effective and enjoyable programs will be easier than ever before.

HOME GYM

Sick and tired of driving to the gym? The 360gym is an excellent option for fitness enthusiasts of all levels. With the ability to be used at home or your preferred location, the 360gym offers a compact and complete fitness solution. Train with friends or in privacy, when and where it suits.

SPECS S8 MKII:

Tare Weight: 1020kg (approx.)

Exterior Length: 3850mm

Exterior Width: 1870mm

Exterior Height: 2200mm

S8 MKII

Fitness: Whenever. Wherever.

DIFFERENTIATE YOURSELF

360gym enables trainers to deliver a complete strength and functional training service in various formats including: We come to you, one-on-one, small group PT, corporate training and more. Couple this with the benefits of conducting programs quickly and easily in unique and interesting locations. Every workout session will truly set your business apart.

SUPER PORTABLE

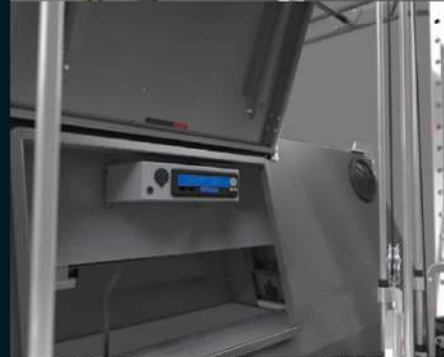

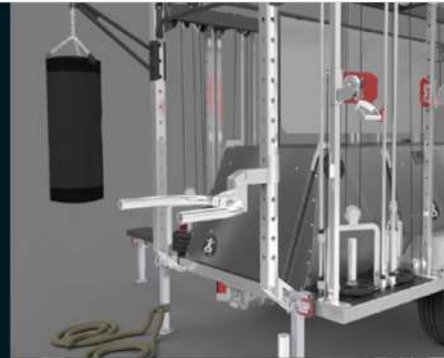

Set up in the park, at the beach or at your client's home in just minutes. Weighing in at just 1 tonne, the 360gym can be towed by most small to mid-sized vehicles.

AMPLE STORAGE

The newly designed storage compartment in the S8 MkII now incorporates 4 lockable access doors so users never need to "climb inside". All your gear can now be accessed from the exterior, enabling you to utilise the walkway as additional storage giving you just as much storage as before and lowering the centre of gravity for safer towing and usage.

MADE TO LAST

Featuring anti-rust stainless steel componentry, a waterproof lockable storage compartment and our heavy duty galvanised steel chassis, 360gym provides you with unrivalled quality and durability.
